## Message from Algebra International Summer School!

We are excited to announce that summer scholarship applications are now open for the Algebra International Summer School from 30 June to 25 July 2025, held in the vibrant Croatian cities of Zagreb and Šibenik.

This is a fantastic opportunity for the students to:

- \* Learn from leading experts in the fields of AI, cyber security, data visualization and gaming
- \* Network with international peers and top Croatian companies,
- \* Study at our state-of-the-art campus facilities in Zagreb,
- \* Enjoy a Croatian summer on the Adriatic coast in Šibenik.

Explore Croatia through organized field trips and cultural activities.

## Why join Algebra International Summer School?

Students can select from six micro-credential modules, each designed to help them build their CV and gain 6 ECTS per module:

- ✓ Cutting-edge IT: Cyber Security [1] or Mobile Application Development [2],
- ✓ Data Analysis & Storytelling: Artificial Intelligence [3] or Data-Driven Storytelling [4],
- ✓ Creative Gaming & Branding: Game Design [5] or Creativity and Storytelling in Marketing [6]

Students can join the additional free Croatian Language and Culture module and earn an extra 4 ECTS, providing a deeper dive into Croatia's rich history and language.

## Summer Scholarship Details!

We are thrilled to offer both full and partial scholarships to outstanding students. Full scholarships cover 100% of tuition, while partial scholarships range from 30% to 50%, making this incredible experience accessible to more students.

Applications for scholarships must be submitted by 31 January 2025, via our online application form [7]. Application requirements are also listed on the website.

## What Students Say About AISS!

\_"Living in Croatia was unforgettable. The vibrant culture, beautiful cities, and warm people made the experience enriching and crucial for my career development."\_

\_"This journey broadened my horizons and opened my mind to new perspectives. I'm deeply grateful for the experience and excited to apply what I've learned in the future."\_
