Bilkent University
Faculty of Applied Sciences
Department of Information Systems and Technologies

Summer School will be organized from 4 to 22 August 2025 at Metropolia University!

Details can now be found in [website](). ICT Summer School offers a wide range of courses in areas such as artificial intelligence, data science, electronics, programming, design thinking, business, communication, Japanese language, and start-up business.

Most courses will take place on campus, but a few will be available online. All courses are taught in English. Please note that a few more courses may be added later.

Important Information:

- Nomination & Application Deadline: **31 May 2025**!
  Please note that late nominations and applications will not be considered.

- Tuition Fees: Free for students from partner universities!
  Students must cover their own travel, housing, and personal expenses.

- Nomination process: Only degree-seeking students can be nominated. To nominate students, please email us their name and email address. Please ensure that nominations are submitted by the deadline, as applications without a nomination cannot be considered.

Once nominated, students will receive an email from us with application instructions. Please also share the following application process with the students you nominate.

Students from partner universities must apply and register with this

online form:

- Choose Academic year 2025-2026 and autumn 2025.
- Choose "Technology" as Field of study at Metropolia.
- Choose "ICT Summer School" as Purpose of the short-term mobility period.
- Choose "Information and Communications Technology, 0610" as Degree program at Metropolia.

Course Selection

Course spots are filled on a first-come, first-served basis. We strongly encourage students to apply as soon as possible to secure their spot. Students will be notified in June about their course placements.
Student can take as many courses as wish during the ICT Summer School if timings of the courses do not clash. Course requests with conflicting schedules will not be considered.

Unfortunately, we cannot arrange accommodation for ICT summer school students. Students must find their own accommodation for their stay. Information about short-term housing options is available on **our website** (Check the section of "Private Market")

Note: HOAS housing is not available for the ICT Summer School students. As the summer months are considered as high season, we recommend students to look for their accommodation early.
